JAY HAYASI
SENIOR FRONT END DEVELOPER

PROFESSIONAL EXPERIENCE

I am a highly skilled front-end developer with 6 years of experience in React, antd, three.js, pixi.js, CSS, and Tailwind CSS. I have a strong understanding of JavaScript and its core principles, and I am proficient in creating responsive and interactive user interfaces using React.js. I am well-versed in working with UI designs and collaborating with product designers to create visually appealing and user-friendly websites and applications. My expertise also includes CSS styling using frameworks like antd and Tailwind CSS. I have experience in working with 3D libraries like three.js and pixi.js, allowing me to create engaging and immersive user experiences. With my solid knowledge of front-end development and attention to detail, I am able to translate business requirements into technical solutions effectively.

WORK EXPERIENCE

SOGA CorporationS | Junior Front end developer
Apr, 2018–Jul, 2020

I have 2 years of experience as a junior front-end developer at SOGA Corporation, where I developed 7 projects using technologies like React, HTML, CSS, and JavaScript.
During my time at SOGA Corporation, I collaborated with the development team to implement user interface designs and ensure seamless user experiences.
I worked with cross-functional teams, including designers and backend developers, to meet project requirements and deliver high-quality web applications.
Participating in code reviews, I provided constructive feedback to improve code quality and maintainability.
I stayed updated with industry trends and emerging technologies to enhance my skills and contribute to the growth of the development team.

Cordus Technologies| Senior Front end developer

Aug, 2020 - Jul, 2023

As a senior front-end developer at Cordus Technologies, I led the front-end development team and contributed to the successful delivery of web applications.

Using modern web technologies such as React, Angular, HTML, CSS, and JavaScript, I developed and maintained front-end components.

Collaborating closely with designers, back-end developers, and project managers, I ensured seamless integration of front-end and back-end functionalities.

I provided technical guidance and mentorship to junior developers, fostering their growth and maintaining high-quality code standards.

Throughout my tenure, I completed multiple projects, leveraging best practices for code quality, performance optimization, and accessibility to deliver superior user experiences.

EDUCATION

Toyo University Hakusan Campus, sep, 2013- mar, 2017

Bachelor of Computer Science

I have completed my Bachelor's Degree in Computer Science from Toyo University, Hakusan Campus. As a computer science graduate, I have gained a strong foundation in various aspects of computer science, including programming, algorithms, data structures, software development, and computer systems.

During my time at Toyo University, I had the opportunity to engage in practical projects and coursework that enhanced my understanding of computer science concepts and their applications. I worked on projects involving web development, software testing, and building computer skills. These experiences allowed me to develop problem-solving, critical thinking, and teamwork skills.

Toyo University Hakusan Campus, apr, 2017- mar, 2018

Master of Computer Science

After graduation of university, I want to get a Master degree and did my best to get that.
